## Ares Secondaries

Ares Secondaries Group is one of the largest and most experienced investors in acquiring secondary private fund ownership stakes in the alternative asset management industry. We provide bespoke and customized liquidity solutions across the private equity and credit, real estate and infrastructure asset classes. With over 30 years of experience in the market, we seek to generate attractive risk adjusted returns through leading industry analytics and research, robust deal origination, underwriting and portfolio management activities. As of March 31, 2025, the Ares Secondaries Group had \$31.3 billion in assets under management.

## Ares Wealth Management Solutions

Ares Wealth Management Solutions’ (AWMS) mission is to provide advisors and their clients access to innovative, solutions-oriented investment opportunities, across the Ares platform of industry leading credit, private equity, real estate and secondaries strategies. Through our range of institutional and retail structures, coupled with excellent client service and educational resources, we help investors diversify their portfolios with private market solutions that seek to deliver consistent, long-term growth.

1. The Fund expects to offer investors limited quarterly liquidity through a tender offer process. Under normal market conditions, the Adviser expects to recommend that the Fund repurchase 5% of its outstanding Shares at their net asset value (NAV). No assurance can be given that such tender offers will be approved by the Board. If a tender offer is oversubscribed, investors may be subject to a pro rata reduction in the Shares ultimately repurchased by the Fund unless the Fund increases the size of the tender offer. All terms of each tender offer will be publicly disclosed. The stated minimum investment for Class I Shares may be reduced or certain investors.
2. Performance is measured by total return, which represents the change in net asset value over the indicated time period plus any income distributions.
3. ITD=Inception-to-date. Inception is the date APMF commenced operations. The inception date for Class I shares was April 1, 2022. The inception date for Class D shares was September 1, 2022. The inception date for Class A shares was August 1, 2023. A=Annualized.
4. APMF does not charge investors an upfront sales load with respect to Class A shares. However, if you buy Class A shares through certain selling agents, they may directly charge you transaction or other fees, including upfront placement fees or brokerage commissions, in such amount as they may determine, provided that selling agents limit such charges to a maximum of 3.5% of NAV for Class A shares. Class A shares listed as with sales load reflect the returns after the maximum upfront placement fees and brokerage commissions. Class A shares listed without sales load exclude upfront placement fees and brokerage commissions. Selling agents do not charge such fees on Class I and Class D shares.
5. The MSCI World Index captures large and mid-cap representation across 23 Developed Markets (DM) countries. The index is provided for illustrative purposes only and not indicative of any investment. The index shown is provided solely to illustrate the performance of well-known and widely recognized indices. You cannot invest directly in an index. No representation is being made as to the risk profile of any benchmark or index relative to the risk profile of the fund presented herein. “Since inception” return shown for the MSCI is as of the Fund’s Class I inception date for comparison purposes.

**Footnotes Continued**

6. Percentages may not total 100% due to rounding.
7. "Fund AUM" as used herein is calculated as the sum of (1) the Fund's "Managed Assets" as of June 30, 2025, which is defined as the total assets of the Fund (including any assets attributable to any borrowings or other indebtedness) minus the Fund's liabilities other than liabilities relating to borrowings or other indebtedness, and (2) the amount of capital received from subscriptions effective July 1, 2025 (\$119.9 million).
8. Holdings calculated based on total portfolio value.
9. Calculated as a percent of the total fair value of APMF's investments at the portfolio company level using the data available as of June 30, 2025.
10. Although the Shares will be registered under the Securities Act, the Shares will be sold only to persons or entities that are both "accredited investors," as defined in Section 501(a) of Regulation D under the Securities Act, and "qualified clients," as defined in Rule 205-3 under the Advisers Act. The qualifications required to invest in the Fund will appear in subscription documents that must be completed by each prospective investor.
11. The stated minimum investment for Class I Shares may be reduced for certain investors.
12. Managed Assets is defined as the total assets of the Fund (including any assets attributable to any borrowings or other indebtedness) minus the Fund's liabilities other than liabilities relating to borrowings or other indebtedness.

**Important Information and Risks**

**Past performance is not a guarantee of future results.** An investment in the Fund involves a high degree of risk and therefore should only be undertaken by qualified investors whose financial resources are sufficient to enable them to assume these risks and to bear the loss of all or part of their investment. The Fund and Ares do not guarantee any level of return or risk on investments and there can be no assurance that the Fund's investment objective will be achieved.

An investment in the Fund should be considered illiquid. An investment in the Fund is not suitable for investors who need access to the money they invest. Although the Fund may offer to repurchase a limited amount of its shares via quarterly tender offers, the Fund's shares will not be redeemable, transferable or otherwise exchangeable at an investor's option. As a result, an investor may not be able to sell or otherwise liquidate its shares. There can be no assurance that the Fund will conduct tender offers in any particular period and investors may be unable to tender their shares for repurchase for an indefinite period of time. Additional Fund risks include, but are not limited to: the fund has no operating history, shares are subject to substantial restrictions on transferability and may not be transferred or resold except as summarized in the Prospectus and permitted under the Fund's agreement and declaration of trust, dependence on the Adviser and key personnel that could impact the Fund if changes occur, restrictions on transfers, non-diversification of investments, valuation risks, strategy-specific risks, and portfolio investment risks.

**This is neither an offer to sell nor a solicitation to purchase the securities described herein. Please read the Prospectus prior to making any investment decisions and consider the risks, charges, and expenses and other information described therein. Additional copies of the Prospectus may be obtained by contacting your financial advisor or by visiting [areswms.com](http://areswms.com). Investors should consult with their financial advisor about the suitability of the Fund for their portfolio.**

**Fund Risks**

An investment in shares of beneficial interest of the Fund ("Shares") is speculative with a substantial risk of loss. The Fund and the Adviser do not guarantee any level of return or risk on investments and there can be no assurance that the Fund's investment objective will be achieved. You should carefully consider these risks along with all the other information contained in the Prospectus before deciding to invest in the Fund.

- The Fund has a limited operating history.
- An investment in the Fund may not be suitable for investors who may need the money they invested in a specified timeframe.
- Shares are not listed on any securities exchange, and it is not anticipated that a secondary market for Shares will develop. Although the Fund may offer to repurchase Shares from time to time, Shares will not be redeemable at an investor's option nor will they be exchangeable for shares of any other fund. As a result, an investor may not be able to sell or otherwise liquidate its Shares. The Adviser intends to recommend that, in normal market circumstances, the Fund's board of trustees (the "Board") conduct quarterly tender offers of no more than 5% of the Fund's net assets.
- Shares are subject to substantial restrictions on transferability and resale and may not be transferred or resold except as summarized in the Prospectus and permitted under the Fund's agreement and declaration of trust.

In addition to the risks above, the Fund's risks and limitations also include, but are not limited to the following:

- Dependence on the Adviser and Key Personnel: The Fund will depend on the Adviser's ability to perform its functions and the key personnel who are employed by the Adviser. There is no assurance that these key personnel will continue to be associated with the Adviser which can have an impact on the management and performance of the Fund.

- Non-Diversification of Investments: The Fund is a "non-diversified" investment company for purposes of the Investment Company Act which means the Fund may be more susceptible to the risk that one single event or occurrence can have a significant adverse impact on the Fund.
- Valuation Risks: The Fund is subject to valuation risk, which is the risk that one or more of the securities in the Fund are valued at prices the Fund is unable to obtain upon sale due to factors such as incomplete data, market instability, human error, or no readily available market quotations, and other factors. Therefore, the variance in the valuation of the investments can impact fees and expenses and the price a Shareholder will receive when purchasing or selling shares of the Fund.
- Private Equity Strategy-Specific Risks: Direct Investments in private companies and investments in Portfolio Funds, involve a high degree of business and financial risk that can result in substantial losses.
- Private Company Investment Risks: Private companies are generally not subject to SEC reporting requirements, are not required to maintain accounting records in accordance with generally accepted accounting principles and are not required to maintain effective internal controls over financial reporting. As a result, there is the risk that the Fund may invest based on incomplete or inaccurate information, which can adversely affect the Fund's performance. Private companies may also have limited financial resources, shorter operating histories, more asset concentration risk, narrower product lines and smaller market shares that can make such private companies more vulnerable to competitors' actions and market conditions. Private companies are generally in restricted securities that are not traded in public markets, and are subject to holding periods, and the Fund may not be able to realize the value of such investments in a timely manner. There may also be significant competition for these types of assets which can affect the Fund's ability to achieve the desired allocation and investment returns.
- Portfolio Fund Investment Risks: Portfolio Fund interests are expected to be illiquid; their marketability may be restricted and the realization of investments from them make take considerable time and/or be costly. In addition, Portfolio Funds may have little or no near-term cash flow available to distribute to investors including the Fund. Certain securities in which the Portfolio Funds invest may not have a readily ascertainable market price and are fair valued by the Portfolio Fund Managers, and these valuations may be impossible to confirm. The investments made by Portfolio Funds will entail a high degree of risk and in most cases be highly illiquid and difficult to value.
- Secondary Investment Risks: There is no assurance that Secondary Investments made by the Fund will be made at attractive discounts to net asset value or at all. There is no assurance that the Fund will be able to identify Secondary Investments that satisfy the Fund's investment objectives.
- Direct Investment Risks: The Fund's investment portfolio will include Direct Investments, which are investments in the equity and/or debt securities of private companies including alongside private equity funds and other private equity firms. The Adviser may have little or no opportunity to conduct due diligence or negotiate the terms of such investments. The Fund's ability to dispose of Direct Investments may be severely limited.

See the Prospectus for more detailed risk information. The list above is not a complete list of Fund risks. You should rely only on the information contained in the Prospectus. The Fund has not authorized anyone to provide you with different information. You should assume that the information provided by the Prospectus is accurate as of its date. Neither the Securities and Exchange Commission's ("SEC") nor any state securities commission has approved or disapproved of these securities or determined if the Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.
