

Still believe the old bedtime story that life insurance only provides a death benefit?
It's time you read,

The Tale of the Bull and the Bear

As the bull and the bear play their games
Well laid plans could go up in flames.
What goes up must come down.
Still there's no need to frown.
Your future is safe just the same.

Don't play games with your future – luckily there's Indexed Universal Life Insurance from National Life. It's permanent life insurance that provides more than just a death benefit. It also has the potential to build cash value that earns interest based in part on changes in a market index, but with a "floor"* that protects your policy from losing money due to a decline in the index.
