1. Lifetime income may be provided by a life insurance income rider. Life Insurance income riders typically have limitations and restrictions to exercising them, including but not limited to, minimum and maximum age requirements, years policy has been in force and minimum policy values. Receipt of other policy benefits that reduce policy values may also reduce the ability to exercise the income rider. Receipt of income benefits will reduce the policy's cash value and death benefit, may reduce or eliminate the availability of other policy and rider benefits, and may be taxable. Riders are supplemental benefits that can be added to a life insurance policy and are not suitable unless you also have a need for life insurance. Riders are optional, may require additional premium and may not be available in all states or on all products. This is not a solicitation of any specific insurance policy.
