C. Dividend Election:

You may select a new dividend option in this section. Applied dividends are automatically changed to Dividend Additions, unless another option is requested in this section.

- Cash Dividend Deposits Dividend Additions

NOTE: Dividends are not guaranteed. Dividend earnings are effected by the economic environment. Changing interest rates, or certain policy changes, can impact policy dividends. Under these circumstances, when dividend values are being used to pay required premiums there will be an affect on the funding level of your policy. The Enhanced Paid Up Life Insurance option uses dividends to provide part of the total coverage. A dividend increase can result in a coverage increase and a dividend reduction may result in reduced coverage or additional payment requirements.
