**2. Instructions To Sentinel Funds (Complete A or B)**
**Withholding**

IRS regulations require the Custodian of your IRA to withhold federal income taxes from the amount converted at the rate of 10% unless you designate a different amount or elect not to withhold. Withholding applies to the entire amount of the conversion distribution, including the amount of any non-deductible contributions which may have been made to your IRA. You may still invest the entire amount of the conversion distribution into your Roth IRA by using other assets to replace the amount withheld for Federal income taxes. Remember, if you use assets of your IRA to pay taxes on the conversion amount (either by liquidating additional shares or by not replacing amounts withheld for federal income tax), the IRA assets used to pay those taxes will be considered a premature distribution (since they are not being converted into your Roth IRA or rolled over into another IRA) and may be subject to a 10% early withdrawal penalty. Ordinary income taxes apply to any amount converted to your Roth IRA.

**State Tax Withholding:** Depending on your state of residence, state income tax may also apply. State tax withholding will be based on your state's minimum withholding requirement.

- Withhold federal income tax at a rate of \_\_\_\_\_ % (10% or greater).
- Do not withhold federal tax from my distribution. I understand that I am still liable for the payments of federal income tax on the amount received. I also understand that I may be subject to federal income tax penalties under the estimated tax payments rules if my payments of the estimated tax and withholding are insufficient.

**Note:** If you do not check any of the boxes, the minimum percentage will automatically be withheld for federal and state income tax, when applicable.
