Performance data quoted represents past performance, and is no guarantee of future results. Principal value and return will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance shown here.

BlackRock Government Money Market V.I. Fund: You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time. Fund shares are not guaranteed by the U.S. government.

Variable annuities are long-term investments designed for retirement purposes. Early withdrawals may be subject to a deferred sales charge and if taken prior to age 59½, a 10% federal tax penalty may apply. Gains distributed from the annuity will be taxed as ordinary income in the year the money is received.

Stocks of smaller companies are often associated with higher risks than stocks of larger companies including higher volatility. Investment in global markets may include added risks such as currency fluctuations and other economic and political factors.

Returns are not annualized for periods under one year.

The non-standardized adjusted historic average annual returns before surrender charge are shown as a net rate of return which reflects the portfolios' investment income and capital gains and losses less investment management fees and expenses, and reflects the mortality and expense risk charge of 1.25%, an asset based administrative fee of .15% and an annual contract charge of \$30. Performance does not reflect the deduction of the surrender charge which, if reflected would reduce the performance figures shown. The maximum surrender charge is 7% of premium navments.

The non-standardized adjusted historic average annual performance before surrender charge assumes that the Sentinel Advantage 5 contract had been available since the inception of the underlying fund options and that the subaccounts were available as options and that the subaccounts were available as options under the contract.

BlackRock Government Money Market V.I. Fund: You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time. Fund shares are not guaranteed by the U.S. government.

Variable annuities are long-term investments designed for retirement purposes. Early withdrawals may be subject to a deferred sales charge and if taken prior to age 59½, a 10% federal tax penalty may apply. Gains distributed from the annuity will be taxed as ordinary income in the year the money is received.

Stocks of smaller companies are often associated with higher risks than stocks of larger companies including higher volatility. Investment in global markets may include added risks such as currency fluctuations and other economic and political factors.

Returns are not annualized for periods under one year.

The non-standardized adjusted historic average annual returns before surrender charge are shown as a net rate of return which reflects the portfolios' investment income and capital gains and losses less investment management fees and expenses, and reflects the mortality and expense risk charge of 1.25%, an asset based administrative fee of .15% and an annual contract charge of \$30. Performance does not reflect the deduction of the surrender charge which, if reflected would reduce the performance figures shown. The maximum surrender charge is 7% of premium navments.

The non-standardized adjusted historic average annual performance after surrender charge assumes that the Sentinel Advantage contract had been available since the inception of the underlying fund options and that the subaccounts were available as options under the contract.

<sup>&</sup>lt;sup>1</sup> Date the portfolio was first included in the subaccount, except where additionally noted below

Contract inception date was 5/1/2016.

The standardized average annual returns are shown as a net rate of return which reflects the portfolios' investment income and capital gains and losses less investment management fees and expenses, and reflects the mortality and expense risk charge of 1.25%, an asset based administrative fee of .15% and an annual contract charge of \$30. Performance reflects the deduction of the surrender charge which reduces the performance compared to performance under the assumption that the contract is not surrendered. The maximum surrender charge is 7% of premium payments. The surrender charge schedule applies to each premium payment and declines for each completed year since payment.
