# Let's Map this Out

Prepare for the Unexpected.

Detours happen. Make a plan so the most important people in your life stay on track.

## Where are you?

Look at your current income, savings, expenses, debt and assets.

## Where do you want to be?

Identify big and small goals.

- Big: purchase a home, save for retirement, pay for college.
- Small: create a budget and stick to it.

## How will you get there?

Action Steps! Contact a financial advisor or an insurance professional to help you map out a strategy to pay down debt, build an emergency fund, and reach your financial destination.

## Are You **Ready?**

Spending and saving money are personal and emotional choices for many people. Whether you have a little or a lot, a financial roadmap will help you worry less, breathe easier, and experience life.

A smart retirement plan takes into account that people are living longer and spending more years in retirement.

## Solving Life's Puzzle

**Together With You. Together For You At National Life.**

We roll up our sleeves and get to the hard work of helping make your life on Main Street the life you imagined.

At National Life, our goal is to keep the solutions simple. Let our people and our products help you worry less, breathe easier, and experience life.

Modern insurance products should be part of a sound financial plan since they are more than for just emergencies.

Some of us will need assisted care at some point in our lives.

A loved one may have an unexpected hospital stay and the unexpected medical bills that go with it.

We may find ourselves struggling to pay medical bills or have medical debt.

Some of us worry about outliving our retirement income and the financial challenges that come with it.

## Worry Less

Protect the future of your loved ones. Without protection, your premature death can devastate the financial quality of the life you leave behind for those you love.

Premature death can have a long term financial impact on a surviving loved one. By protecting your family financially, you can help relieve some income uncertainty in the years following your death.

## Breathe Easier

Americans living with chronic diseases face rising healthcare costs. Health insurance copays and out-of-pocket expenses continue to rise.

Living benefits<sup>1</sup> from life insurance, annuities, and optional riders can potentially be used for:

- medical expenses
- meeting unexpected emergencies
- replacing lost income
- taking advantage of opportunities
- making home repairs to accommodate physical limitations

## Experience Life

It's not how much you have, but how long it will last.

Overcome the financial challenge of living too long. Our annuities and the riders on life insurance can potentially provide a guaranteed income for life in retirement.

- Guaranteed income you cannot outlive<sup>2</sup>
- Supplement other retirement income
- Protect your retirement dreams

1 Living benefits may be provided by life insurance riders, including Accelerated Benefit Riders. Payment of Accelerated Benefits will reduce the Cash Value and Death Benefit otherwise payable under the policy. Receipt of Accelerated Benefits may be a taxable event and may affect your eligibility for public assistance programs. Please consult your personal tax advisor to determine the tax status of any benefits paid under this rider and with social service agencies concerning how receipt of such a payment will affect you. Riders are supplemental benefits that can be added to a life insurance policy and are not suitable unless you also have a need for life insurance. Riders are optional, may require additional premium and may not be available in all states or on all products. This is not a solicitation of any specific insurance policy.

2 Guarantees are dependent upon the claims-paying ability of the issuing company. Life Insurance and annuity income riders typically have limitations and restrictions to exercising them, including but not limited to, minimum and maximum age requirements, years policy has been in force and minimum policy values. Receipt of other policy benefits that reduce policy values may also reduce the ability to exercise the income rider. Receipt of life insurance income rider benefits will reduce the policy's cash value and death benefit, may reduce or eliminate the availability of other policy and rider benefits, and may be taxable.
